شركة ارادة المستقبل للمقاولات العامة والخدمات النفطية المحدودة  
Future will for general contracts and oil services Co.Ltd

FUTURE  ILL  
For General Contracts and Oil Services

# INTRODUCTION

Future Will Company was founded in 2009

The basic profile of the Company is construction and rehabilitation of oil and gas facilities.

Future Will Company implements projects including EPCC (engineering, procurement, Construction and commissioning) on construction of trunk pipelines, compressor and pump stations, water injection station, oil and gas treating plants, tank farms of oil products, power transportation and power stations .

During implementation of these projects Future Will Company successfully cooperates with design organizations of Chinese, Indians and other countries. The Quality Plan and control procedures are developing for each project. An independent third party inspection authority is engaged for certification of works on such projects. In this respect the Company has been cooperating with Bureau Veritas for a long time.

All works are carried out in compliance with ISO 9001, ISO 14001, ISO 29001, ISO 31000 and ISO 45001. Thus, the quality system is regulated by international, interstate, national and departmental normative technical documents, as well as appropriate internal documents of the Company. Over the period of time the Company has established close relations with manufacturers of oil and gas equipment and pipes manufactures from CIS, Middle East and Europe. The company continuously looks for application of innovative technologies in building and usage of modern equipment and materials of the leading world producers.

Future Will Company is one of the leaders carrying out a complex of works for oil and gas industry including conceptual and detailed design, qualified engineering, projects management, procurement, logistic, construction, start-up and commissioning.

# OUR SERVICES

- Trunk pipelines: oil pipelines, gas pipelines, condensate pipelines and;
- Distribution gas pipelines and gas distribution stations;
- Compressor and pump stations;
- Water injection stations;
- Gas supply systems of settlements;
- Storage tanks for oil, oil products and liquefied petroleum gas;
- Development of Utilities and related infrastructure of process plants and pipelines (energy supply, communication, water supply and sewerage system, roads, bridges etc.);
- Natural and petroleum gas liquefaction units and facilities;
- Fire fighting systems;
- Control and communication systems of oil and gas transport networks;
- Power transmission lines, substations and switchgears up to 110 kW, autonomous power plants up to 10 MW, and electric lighting of industrial, housing and public facilities.

# CLIENTS

# COMPLETED PROJECTS

Construction and Commissioning of Buzurgan Oil Export Pipeline Project.

Subcontract Number: DPABI/IR/JS-MS/028-2013

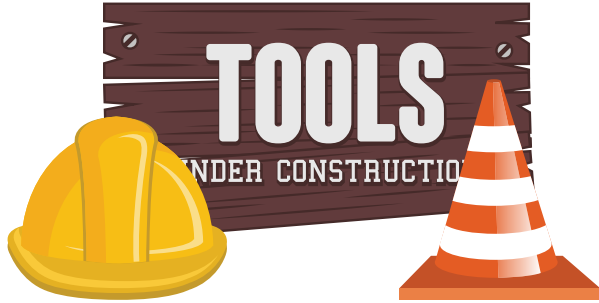

Client : Daqing Petroleum Administrative Bureau Branch, Iraq (DPABI)

Value in US : \$ 1,862,423.00

Country: Iraq

Contract : 96 days

# FUTURE WILL

For General Contracts and Oil Services

# Construction of Siphon of Shatt Al Arab and Appurtenant Structures

Subcontract Number: P1256-11/NSCC-PMT/SUBCON0014

Client : NSCC International Limited

Value in US Dollars: \$ 16,021,360.00

Country: Iraq

Contract Duration: 12 months

## Our Expert Team

### New Intake Water Pump Station PCC

Contract Number: CMITWRS-781-PRT1-30255-10.53-

Client: CNOOC Iraq Limited

Value in US Dollars: \$16,677,494.06

Country: Iraq

Contract Duration: 12 Months

# NATURAL GAS PIPELINE
